

27 November 1974

MEMORANDUM FOR: Director of Central Intelligence

Bill:

1. You will recall my note of 18 November (attached) suggesting that you, Carl, Charlie Kane, and I meet on the matter of a security system at the White House as described to Carl by Mr. Rumsfeld.

2. Carl, Charlie, and I met on 27 November and have a mutually agreed understanding of the problem, how we should react if the Agency is officially requested to respond, and who our suggested senior security officer to perform the work will be. We, therefore, now find ourselves in the following position. There is not an official request to the Agency to perform consultant security services to the White House; but if such a request were to be given to you, we are prepared to respond immediately, should you so desire.

STAT

John F. Blake
Deputy Director
